Long-Term Relationship

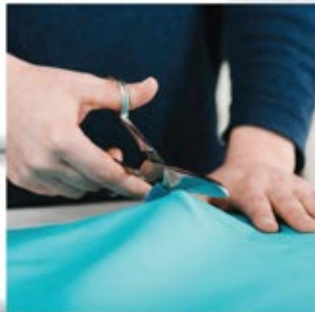

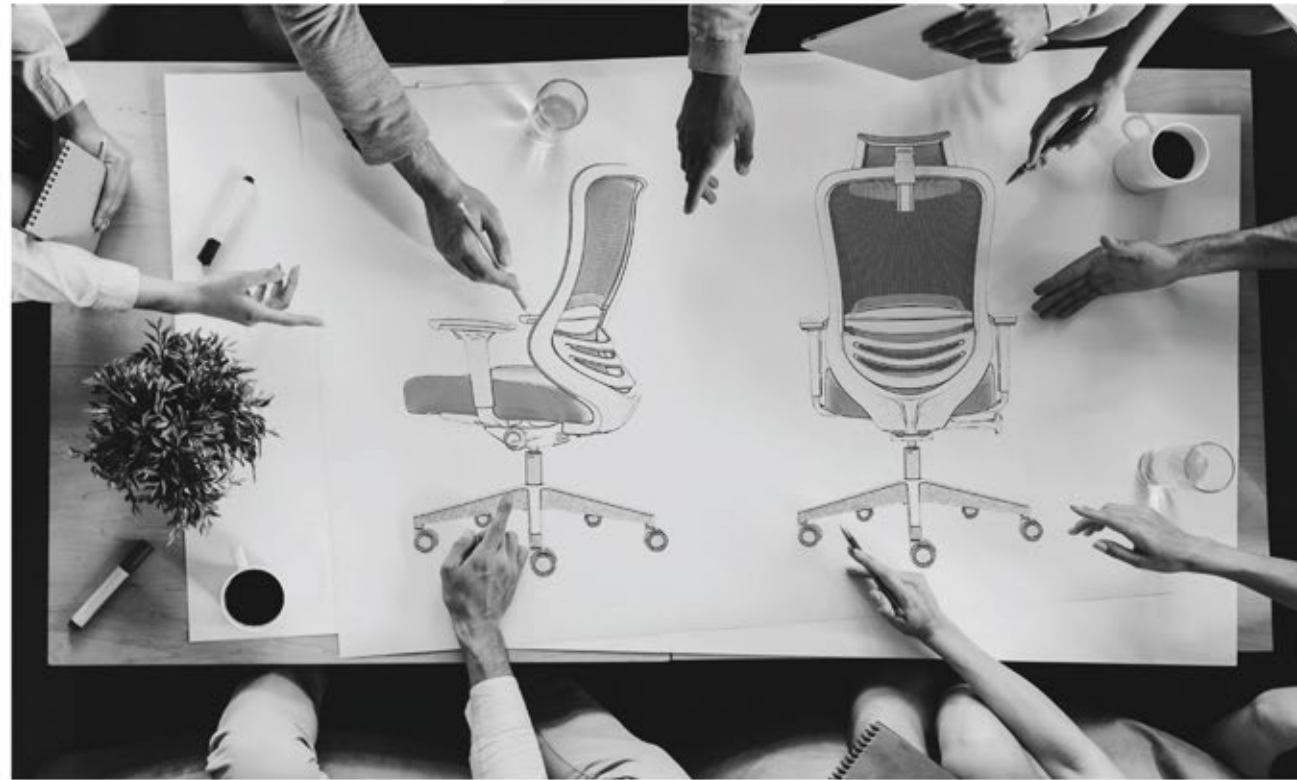

Our excellent manufacturer relationships and buying power mean we can negotiate the best price for you. We act honestly and fairly to both our clients and our suppliers. We believe in and value long term relationships with our customer and suppliers.

In our years of management experience, we have learned that customer satisfaction is the key of our business growth. Thus, we have achieved superior levels of customer satisfaction by paying attention to the finest details in everything we do. To us, customer focus covers everything from professional expertise and advice for before-sales service, product quality to prompt delivery and after-sales service. That's how we have developed exceptional levels of repeat business.

How We Do

We keep perfecting our design, functionality and ergonomics of our product are top priority to us. Hundreds of unfinished pieces are always available in our warehouse, ready to be processed. Classic Chair endeavours to supply furniture as per the original for as long as possible. The supply chain and whole production process – design & prototyping, processing, assembly and upholstery is controlled and implemented within our factory.

The chair is an indispensable object, and often almost obvious. The construction of its frame, the solidity of the base, the quality of the material are key factors. We are not just a one stop solution provider, we need to collaborate with you to find the right products to create your ideal workspace.

Our Production

Experience the artistry behind office chair production as we take you on a journey through the meticulous craftsmanship and innovation shaping every ergonomic masterpiece. From raw materials to assembly lines, discover the dedication and teamwork creating seating solutions that redefine workplace comfort worldwide.
